# TABLE OF CONTENTS

## **Featured in: Newly Published Neuropathy Treatment Study**

**01**

Our products were used in a 90-day treatment study completed on patients diagnosed with Peripheral Neuropathy. Read the full study for results.

## **Bedrock Bioscience © Light Techonology**

**02-04**

Understand how our lights combine both Infrared and Red light technologies to create the best light on the market.

## **Nerve Damage/Neuropathy Products & Bundles**

**05-11**

Unique light therapy devices designed for Neuropathy and Nerve Damage symptoms that can be used to treat many areas on the body. The most versatile light on the market.

## **Weight Loss Products & Bundles**

**12-16**

The Body Reboot light exclusively utilizes Red light at a wavelength ideal for body contouring. The full system includes our Body Reboot Capsules and our Body Reboot Drops.

## **Men's Health Products & Bundle**

**17-21**

Why buy from the generic consumer shops when you can buy a medical grade product at a fraction of the cost? Our Men's Health Bundle features a one-of-a-kind product line. Includes discreet packaging for every shipment.

## **Research Behind Our Products**

**22**

Bedrock Bioscience © uses the latest cutting-edge technology backed by hundreds of research articles. A collection of studies on the benefits of both light therapy products and supplements can be found on our research page.

# FEATURED IN: INTERNATIONAL JOURNAL OF MEDICINE BREAKTHROUGH NEUROPATHY TREATMENT STUDY

## TREATMENT OF PERIPHERAL NEUROPATHY: COMBINATION THERAPY USING LED LIGHT, EXTRACORPOREAL SHOCKWAVE THERAPY, PLATELET RICH PLASMA, AND AN ORAL DIETARY SUPPLEMENT

We conducted an open-label, multicenter pilot trial with 34 subjects (19 males and 15 females ranging from 40 - 85 years of age). All of the participants were diagnosed with peripheral neuropathy and had bilateral symptoms in their feet, and many reported the same symptoms (pain, numbness, tingling, burning, and cramping) in their lower legs. The duration of symptoms ranged from four months to over six years.

On Day 0, subjects were given a 90-day supply of the oral supplement with dosing instructions and a **LED light therapy device**. They also received three platelet-rich plasma (PRP) injections in their lower extremities. Subjects also received an extracorporeal shockwave therapy (ESWT) treatment for each foot and subsequently twice per week for the first six weeks, then once weekly for the duration of the study. Subjects filled out the Brief Pain Index (BPI) at weekly intervals. On Day 90, subjects completed the Patient Global Impression of Change (PGIC) survey controlled RCT trial.

By using a multi-modality treatment therapy protocol for PN patients, we demonstrated that the combination of PRP, **LED light therapy device**, ESWT, and an oral supplement **lowered pain scores** and **significantly improved** subjects' impression of change.

**73% of participants reported either Very Much Improved or Moderately Better at the end of the trial.** 23% of participants reported Little Improvement, and one reported No Improvement from the treatments.

Spinoso, A., Settineri, R., McLaren, C. and Nicolson, G.L. (2023) Treatment of Peripheral Neuropathy: Combination Therapy Using LED Light, Extracorporeal Shockwave Therapy, Platelet Rich Plasma, and an Oral Dietary Supplement. International Journal of Clinical Medicine, 14, 250-259.

# Bedrock Bioscience © LIGHT TECHNOLOGY

BEDROCK BIOSCIENCE © LIGHTS COMBINE BOTH INFRARED AND RED LIGHT TECHNOLOGIES TO CREATE THE BEST LIGHT ON THE MARKET

We combine both **880 (infrared)** and **660 (red light)** nanometer diodes due to the unique therapeutic effects of each wavelength on the body. Our lights are meticulously crafted and designed to incorporate the benefits of both red light and infrared light technology creating the **highest quality, medical grade products** for every doctor to improve their patients' quality of life.

Of the two wavelengths, 880nm penetrates the **deepest** and it promotes **deep cellular healing** and **regeneration**. 880nm cannot be seen by the naked eye. 660nm produces red light. Red light therapy **increases local circulation** and **promotes new capillary growth**.

Technical Specifications	Pro Series Lightpad	The Legacy Lightpad
Wavelength (Red, Infrared)	660nm, 880nm	660nm, 880nm
Diode	180	120
Diode Type	Flat Bulb	Flat Bulb

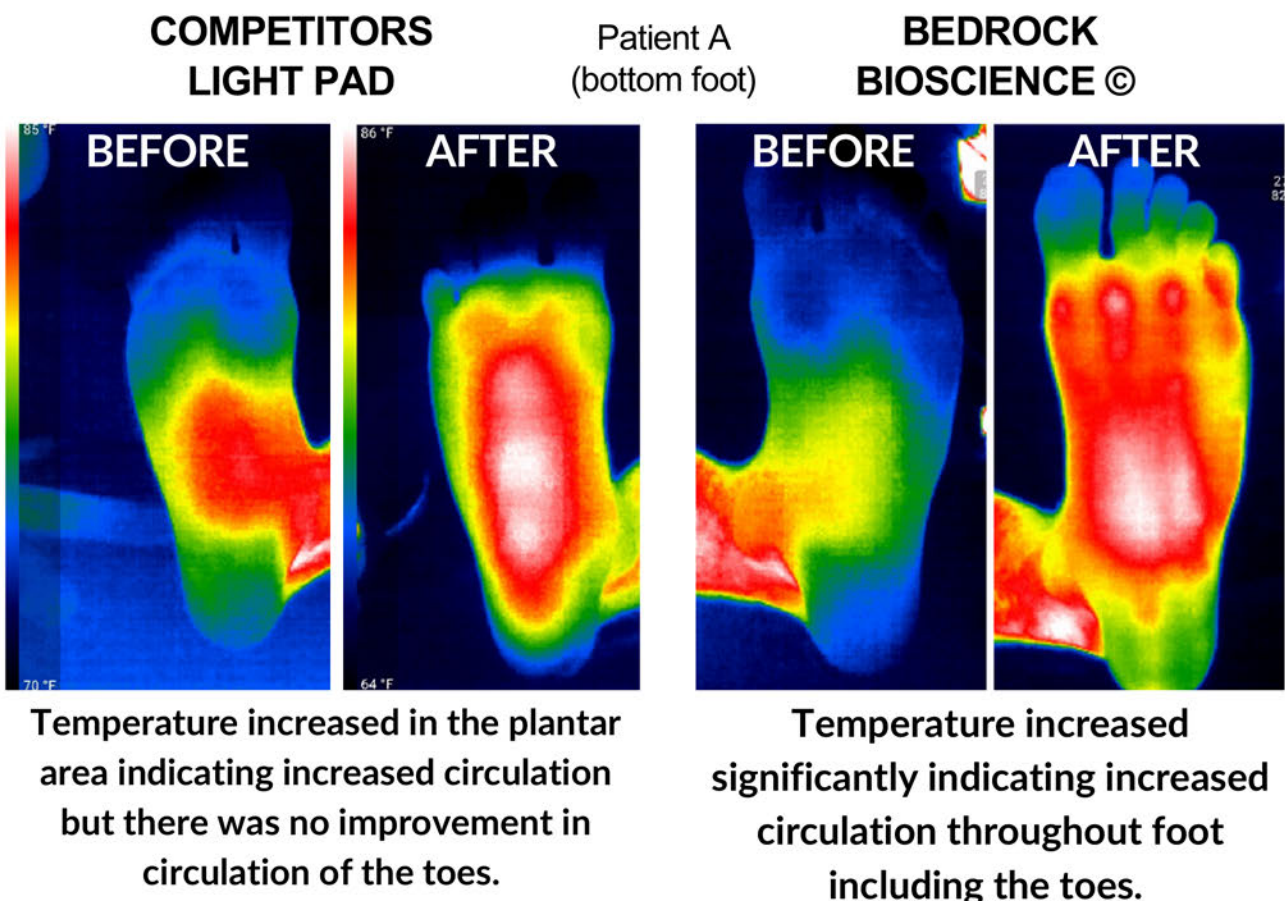

# OUR LIGHTS VERSUS COMPETITORS

**THE SYNERGISTIC EFFECT OF COMBINING BOTH RED LIGHT AND NEAR-INFRARED IS CLEARLY DEMONSTRATED IN THE THERMOGRAPHY IMAGES**

Thermography may be useful in the early diagnosis of peripheral neuropathy.(1)  
Competing light pads provide an optical output within the near-infrared spectrum with a technology that has been in use for nearly 30 years treating Neuropathy Patients with success.

**Our Legacy Lightpad builds on the technology and success of our competitors by combining red light (660 nm) with near-infrared (880 nm).**

1. *Clinics (Sao Paulo)*, 2012 Dec; 67(12): 1419–1425.  
doi: [10.6061/clinics/2012\(12\)12](https://doi.org/10.6061/clinics/2012(12)12)

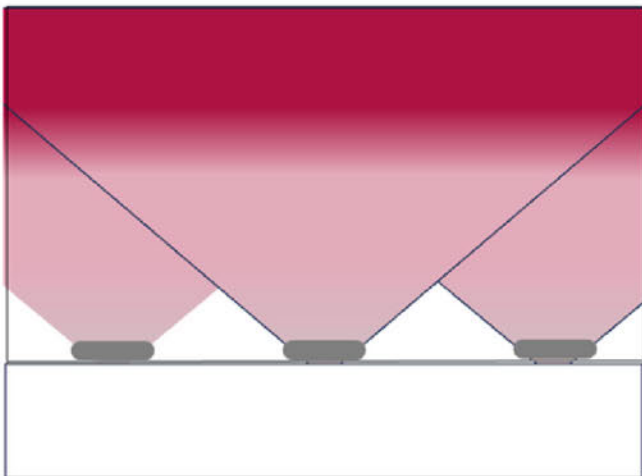

# ROUND DIODE VERSUS FLAT DIODE

**BEDROCK BIOSCIENCE © LIGHTS ARE MADE WITH SURFACE MOUNT TECHNOLOGY (SMT) PROVIDING GREATER TREATMENT COMFORT AND SIGNIFICANTLY HIGHER OPTICAL OUTPUT COVERAGE TO EPOXY LEDS (COMPETITOR LIGHT BULBS)**

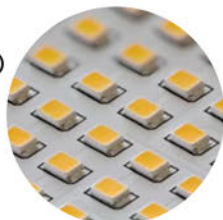

The newer generation surface mount (SMT) flat diodes provide a **high level of comfort** as well as an **increased optical output** per diode, allowing for **fewer diodes needed for comparable power output**. Our lights take advantage of the new technology and produce over 2000 Joules of light directly on the skin in the **20 minute treatment time**.

All of our lights are made of soft flexible materials and are **the most versatile on the market** allowing for easy application to the legs, hands, knee, head, shoulder, back, etc.

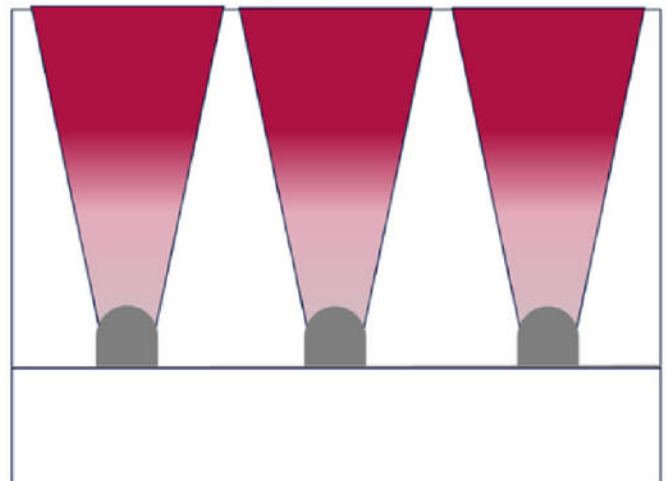

**SMT LED**

**BEDROCK BIOSCIENCE ©  
LEGACY LIGHT PAD  
120 SMT DIODES**

**Epoxy LED**

**COMPETITOR LIGHTS  
300 EPOXY DIODES**

# NEUROPATHY PRODUCTS

We combine both 880 (infrared) and 660 (red light) nanometer diodes due to the unique therapeutic effects of each wavelength on the body. Our lights are meticulously crafted and designed to incorporate the benefits of both red light and infrared light technology creating the highest quality, medical grade products for every doctor to improve their patients' quality of life.

# OUR 2-IN-1 THERAPY DEVICE

PEMF THERAPY IMPROVES THE BODY'S NATURAL ABILITY TO HEAL BY STIMULATING CELLS TO PROMOTE HEALING WHILE OUR LIGHT DEEPLY PENETRATES THE CELLS TO PROMOTE DEEP CELLULAR HEALING AND REGENERATION

An effective way to help alleviate pain from nerve damage is through the use of pulsed electromagnetic field (or PEMF) therapy. Studies have shown (1) that continual PEMF therapy treatments have the effect of lessening the amount of pain endured from nerve damage through the recharging of damaged cells in the afflicted area.

Through our research, many clinics included PEMF Therapy Devices within their Neuropathy care plans. On top of their **LED Red Light Therapy**, patients were also required to complete their PEMF Therapy Treatment which lasts an **additional 30 minutes**.

By utilizing the pulsed magnetic technology and the success of our Legacy Light Pad, we have recently released **The Pro Series Footlight with Pulsed Magnetic Technology**.

**The Pro Series Footlight** expands on the Legacy Lightpad characteristics by combining another treatment which decreases overall treatment time by 50%, increases patient compliance and creates a highly effect 2-in-1 treatment device.

(1) Weintraub MI, Cole SP. Pulsed magnetic field therapy in refractory neuropathic pain secondary to peripheral neuropathy: electrodiagnostic parameters--pilot study. *Neurorehabil Neural Repair*. 2004 Mar;18(1):42-6. doi: 10.1177/0888439003261024. PMID: 15035963.

# PRO SERIES FOOTLIGHT WITH PULSED MAGNETIC THERAPY TECHNOLOGY

## NOW INTRODUCING:

### PRO SERIES FOOTLIGHT WITH PULSED MAGNETIC TECHNOLOGY

**Pro Series Footlight** expands on the Legacy Lightpad characteristics by increasing coverage area and includes pulsed magnetic technology to incorporate a 2-in-1 treatment device. This light surpasses the optical output of the Legacy Lightpad.

SCAN TO BUY

Uniquely designed to be versatile and can be applied to not only the feet, but also legs, hands, shoulders, head, thighs, back, neck and arms. Made of a rubberized textile material, the device is flexible and made to conform to the shape of the body part that it is being treated. Using high quality elastic straps, the light unit will remain in place for the duration of the **20 minute treatment time.**

# NERVE SUPPORT FORMULA CAPSULES

**THE NERVE SUPPORT FORMULA CAPSULES CONTAIN FIVE VITAL NUTRIENTS FOR HEALTHY NERVES.**

**Alpha Lipoic Acid, B6, B12, Benfotiamine, and Folate** all make up the main ingredients in this formulation.

**Alpha Lipoic Acid (ALA)** is a powerful antioxidant that's been used for years to relieve neuropathy in European countries. It moves into the nerve cells which improves blood flow and oxygen to the nerves.

**Vitamin B6** helps to increase nerve function and balance the nerve metabolism neurotransmitters.

**Vitamin B12** is a critical nutrient for proper nerve function, and deficiency has been linked to neuropathy in the hands and feet.

**Benfotiamine** is a fat soluble form of vitamin B1. Studies have demonstrated a reduction in neuropathy pain as well as improved sensation with the use of benfotiamine.

**Folate** is important during the aging process because it provides nourishment for the brain and the production of blood cells. Folate has been shown to significantly improve the function of the endothelium (lining of blood vessels). We use Magnafolate in our formulation, a trademarked, patented form of folate which presents as a C crystalline salt type resulting in significantly better absorption and higher bioavailability.

# BODY REBOOT LED LIGHTPAD

THE BODY REBOOT LIGHT EXCLUSIVELY UTILIZES 635 WAVELENGTH  
RED LIGHT IDEAL FOR BODY CONTOURING

Research shows that 635 nanometer wavelength is optimal for body sculpting. At 635nm, red light therapy has been shown to potentially provide benefits such as **increased blood circulation** and also assists in **specific body contouring**.

SCAN TO BUY

MSRP: \$1,499.99

**PROVIDER WHOLESALE**

**PRICING: \$393.75-\$600**

Uniquely designed to apply to midsection, thighs or arms.

The device includes a clear plastic cover over the diodes to make cleaning quick and easy after each use. Using the elastic straps, the light remains tightly in place for the duration of the **15 minute treatment time** producing a total of 5760 Joules of energy to the treatment area in that time.

# BODY REBOOT FORMULA CAPSULES

## THE BODY REBOOT FORMULA CAPSULES CONTAIN SEVERAL KEY INGREDIENTS THAT SUPPORT METABOLIC FUNCTION

These natural ingredients work synergistically to **help support blood sugar, insulin sensitivity, and fat burning.**

**Niacin:** one of eight water-soluble B vitamins. Its key role is in the formation of NAD and NADP which help your body process components from food into usable energy. Because it's water soluble, the body has an easier time excreting excess amounts.

**Zinc:** Helps control insulin resistance, appetite, and anthropometric measurements.

**Chromium:** Supports healthy glucose metabolism.

**Gynostemma Pentaphyllum:** Supports immune system health.

**Turmeric Extract (as Longvida):** Helps support a healthy inflammatory response and supports healthy joints.

**Lesser Galangal Extract:** Promotes healthy antioxidant levels.

**Quercetin Dihydrate:** Helps support a healthy inflammatory response.

**Ginger Extract:** Helps support a healthy inflammatory response and supports nausea relief and digestive health.

**Red Wine Extract:** Supports energy levels.

**Pterostilbene:** Promotes healthy cognitive function.

**Vanadium:** Helps maintain healthy blood sugar levels.

# BODY REBOOT FORMULA DROPS

**NATURAL AMINO ACID SUPPLEMENT DROPS FORMULATED TO  
HELP CUT SUGAR CRAVINGS AND SUPPORT METABOLIC WELLNESS.**

**A hormone-free supplement formulated to support metabolic wellness with the use of these Amino Acid Diet Drops.**

**Niacin:** One of eight water-soluble B vitamins. Its key role is in the formation of NAD and NADP, which help your body process components from food into usable energy. Because it's water soluble, the body has an easier time excreting excess amounts.

**L-Ornithine:** Helps to support the body in breaking down excess ammonia which is a waste product of cellular metabolism.

**L-Carnitine:** Helps support the body in using fat as energy which may lower cholesterol in the blood.

**Beta Alanine:** Helps aid the body in Carnosine which supports muscle endurance in exercise

**L-Arginine:** supports the body in building protein

**L-Glutamine:** Involved in protein synthesis and serves as fuel for the the immune system

**Rhodiola Rose:** Helps the body combat fatigue

**Maca Root:** Supports metabolic health

**Astragalus Root:** Supports cardiovascular health

**Pygeum africanum bark:** Helps support a healthy inflammatory response

MSRP: \$699.99

**PROVIDER WHOLESALE  
PRICING: \$157.50-\$240**

Built with a **rechargeable battery**, you don't need to be near an outlet to use the device. Treatment times are **15 minutes** each and produce a total of 620+ Joules of energy to the treatment area in that time. This design **encapsulates around the penis directing the light specifically on the area that needs treatment**, making the product more efficient.

# MEN'S HEALTH FORMULA CAPSULES

## THE MEN'S HEALTH FORMULA CAPSULES CONTAIN FOUR VITAL NUTRIENTS FOR MEN'S HEALTH

The Men's Health Formula contains L-Arginine (as L-Arginine HCL), L-Citrulline, Pine Bark Extract (Pinus Pinaster), and Ginger Rhizome Extract all make up the main ingredients in this formulation.

These ingredients can help **promote blood vessel relaxation, increase blood flow, provide antioxidants, and increase response time to sexual stimuli.**

**L-Citrulline:** Helps improve blood flow in the body. In studies, L-Citrulline supplementation has been shown to have positive effects on improving blood flow post-exercise in older adults and sexual health in men.

**L-Arginine:** Helps the body to dilate blood vessels and increase nitric oxide levels. In some studies, L-Arginine supplementation has been shown to have positive effects on both athletic performance and sexual stimuli.

**Pine Bark Extract:** Helps increase blood flow.

**Ginger Rhizome Extract:** Helps reduce oxidative stress and other age-related changes to cells and tissues.
